Project:

Architectural Cast Stone

Product information:

We produce this product by utilizing the "Vibrant Dry Tamp Casting Method" in accordance with ASTM C-1364-97, the Standard specification for Architectural Cast Stone. Our company is a producer member of the highly regarded "Cast Stone Institute" & we have been producing these types of products since 1988. Our stone is often supplied with shop drawings to include profiles, cross sections, placement drawings, anchoring devices and other pertinent information. There are five standard colors that we produce, or we can custom color the product to meet specific needs.

AHI has the capability to produce Cast stone in nearly any shape or configuration imaginable. Should you need information on this ASTM specification, samples of our product, references or if we may be of service to you in any way, please let us know.

Thank you for the opportunity of furnishing this quality product on your important project!
