

Gray Finish Coat

Use & Application

Preferred by contractors as an effective & simple alternative to field-mixed finish coats

Create your own stucco texture by using different grades of sand with Spectrum Gray Finish Coat

- Affordable & dries fast for rapid job completion
- Creamy application that sticks well to walls
- Dries a light color, easily covered with paint or finish
- Create texture/finish coat for painted stucco application
- Float walls & stucco skim coats

BLASTING SAND TYPE	DESIRED FINISH
#3 Blasting Sand	Medium Finish Texture
#4 Blasting Sand	Sand Finish Texture
#5 Blasting Sand	Fine Finish Texture
Torpedo Sand	Rough Finish Texture

Mix Design Preferred by Contractors

Reported Coverage

1 bag of Spectrum Gray Finish Coat with	1.5 bags* of #3 Blasting Sand	250-300 SQ/FT
1 bag of Spectrum Gray Finish Coat with	2 bags* of #4 Blasting Sand	400-440 SQ/FT
1 bag of Spectrum Gray Finish Coat with	2 bags* of #5 Blasting Sand	450-500 SQ/FT

*Based on 100 lb bags of sand.

(Contractors have also mixed Spectrum Gray Finish Coat with Torpedo Sand for rough textures.)

Use Gray Finish Coat to Create a Skim Coat or Float the Wall
