Myriad Stone

Product information:

MyriadStone is a limestone-based cast product for interior and exterior use. This product's unique light-weight feature is achieved by incorporating a fire-retardant, EPS foam core in the casting process. A wide variety of colors, textures and applications are available with this product. The applications include but are not limited to range hoods, stone columns, fireplace surrounds, window or entry surrounds, water tables, window sills, column caps and assorted trim items. Myriadstone can be field applied in a 3/8" thin-veneer coating, which replicates natural stone.

MyriadStone can be supplied with shop drawings to include profiles, placement drawings, and other pertinent information. There are 13 available colors and custom coloring of MyriadStone can be performed to meet specific project needs. Typical Compressive Strength Data on Myriad Stone: 28 Days 6220 psi. Engineering is not included with this product.

AHI has the capability to produce MyriadStone in nearly any shape or configuration imaginable. Should you need samples of our product, references, or if we may be of service to you in any way, please contact us.

**Thank you for the opportunity of furnishing this
quality product on your important project!**
