Structural Angle Iron

Product information:

We propose to furnish structural angle iron as manufactured by Nucor Steel of Jewett, Texas. Nucor is one of only a handful of companies in the US that produce this specific product. I have personally been selling product produced from this plant for more than twenty years with positive results. Chances are good that you have seen this widely used material on some of your previous projects.

NUCOR STEEL - Jewett, Texas is a world-class producer of hot rolled carbon steel products. We offer an extensive product/size range of carbon steel angles, channels, flat bars, rounds, squares, and U.M. plate, in addition to concrete reinforcing steel and special shapes. As a proud member of the NUCOR BAR MILL GROUP, we are ISO 9001:2000 certified, ISO 14001:1996 certified, ABS certified, as well as being State D.O.T. certified in a number of states for reinforcing steel. NUCOR is the largest metals recycler in the Western Hemisphere. To help you with your requirements please go to the "Contact Us" page above and click on the E-mail address or call the toll free telephone number.
