Approved masonry cleaners for Spectrum Gray, White, and Colored Cements

Cost effective and efficient specialty masonry cleaners since 1986.
**Tex Clean** masonry cleaning products have been thoroughly tested for their effectiveness and are produced with the finest ingredients available. Satisfied customers who have cleaned millions of brick and block with these products attest to their superior quality.

For excellent results, please read and follow all mixing, application and safety information found on the labels of all **Tex Clean** masonry cleaning products.

If you have a sensitive or easily damaged masonry surface to clean, **Tex Tral** should be used regardless of color.

Coverage ratios are based on 1 concentrated gallon of cleaner.

The before and after photographs seen below show the results of clay brick cleaned with **Tex Clean**.

---

**Tex Clean** is a revolutionary liquid masonry cleaner that removes excess mortar and dirt while effectively controlling vanadium stains. When properly used, **Tex Clean** is an ideal product for brick, colored mortar, stone, structural tile, exposed aggregate and other types of masonry construction. It also works well at removing mildew, dirt and stains from masonry walls and concrete surfaces.

**USE FOR** medium colored clay or brick pavers, concrete brick or pavers, and concrete blocks.

---

**Tex Clean Plus** a masonry lime solvent, is a specifically designed product for the cleaning of dark colored brick and masonry surfaces. **Tex Clean Plus** is ideal for removing excess mortar and dirt without affecting the richness of the color found in darker brick.

As with **Tex Clean**, **Tex Clean Plus** is a more efficient, safer and cost effective product to clean masonry with than muriatic acid. This product has also been found effective and useful for cleaning some concrete walls, floors, plaster and rust stains, as well as after work cleanup of tools, trowels and other masonry supplies.

**USE FOR** dark colored clay or brick pavers, concrete brick or pavers, and concrete blocks.

**Tex Tral** is designed specifically for light colored or sensitive colored masonry surfaces. It softens and removes excess mortar and dirt while effectively controlling vanadium (green) and manganese (brown) and other metallic staining on color sensitive tile and brick and architectural concrete products.

It is also safe for most cast stone, unpolished natural stone, tile, exposed aggregate and many of the new masonry construction materials susceptible to metallic staining. **Tex Tral** is the recommended cleaner for all Spectrum Colored Cements.

**USE FOR** light colored clay and brick pavers, concrete brick or pavers, and **medium colored** natural stone; **dark colored** natural stone; all **custom colored** concrete blocks.

---

**Scum Away** is a white scum remover formulated for the removal of salt scum deposits found on clay brick and tile surfaces. White scum is the formation of hard salt deposits on tile and the face of the brick. This is often caused by improper acid washing. These deposits can easily be removed with **Scum Away**. Do not use **Scum Away** on concrete brick or block, stucco, stone or any other cementitious products.

**USE FOR** clay brick or clay tile surfaces ONLY.
