22 Gauge Wall Ties

Product information:

We propose to furnish our standard 22 Gauge Wall Ties, that we manufacture & or supply from our Alvin Texas facility. The Wall Ties are roughly 7/8" wide and 6 3/4" long and are corrugated in such a manner to provide adhesion to the masonry area. There is screw/nail holes spaced along the tie that are used for fastening to framing components.

These wall ties are made of a galvanized material and have been furnished on countless masonry projects throughout the area, for over twenty years. Should you need samples of this product, references or if we may be of service to you in any way, let us know. Please note that this product does not contain any asbestos, PCB's or other hazardous materials.

**Thank you for the opportunity of furnishing this
quality product on your important project!**
